Message from the Editor

Well, isn't this cool, we are finally commissioned officially; which you will read in the USS Telek News section on the commissioning and promotions for the ship and crew.

Also, we finally received our commissioning certificate for our former unit, the PO Stephen Hawking; the PO Stephen Hawking is now the USS Telek NCC-46112. We also had a special ceremony for the PO Stephen Hawking, we had her commissioned only symbolically so when we receive our commission for the Telek, it will all be official.

Not much to say for this issue, but the aforementioned and the below.

I would like to thank all our readers and say, we hope you enjoy our newsletters. Thanks.

Thank you,
USS Telek Newsletter "Star Times" Editor

Commanding Officers Log

Submitted By: Capt. ST Hobbs, CO

On SD 1103.12.16:45 (ED 12, Mar. 2011 at 4:45 pm est.) the third meeting of the USS Telek NCC-46112 was called into session by her commander.

Four out of the nine crew were in attendance with two guests, 1 from the USS Gorkon, and 1 acting on behalf of SB06.

The CO gave opening Statements, and then gave his monthly report; and discussed options for time limits on getting crew newsletter articles in for the ships' newsletter.

The floor was turned to the 2nd Officer, for the FO was not present for the meeting, and he gave his opening statements and then his report.

The floor was turned to the Chief Engineer, who discussed the *Engineering* field as a potential career for young Americans, as well as our youth in SFC.

The floor was turned to the CMO who gave her monthly medical report.

Ship had ceremonial functions that will be discussed in the news portion of the newsletter.

A representative of SB06 was at the meeting to hand out commissioning certificates, and to present CO with Duty orders. CO then handed out the remaining crews' duty orders.

This concludes this report.

First Officers Log

Submitted By: Ens. N. Manns, FO/CRO

First Officers Report

Happy March! The crew is doing perfectly fine this month, although some distress from the nuclear disaster in Japan is keeping us up at night.

I think it's safe to say the crews' hearts go out to those going through hard times over there.

The ship is planning to raise money for the American Red Cross to do our part and help out.

Other than that it's been a particularly nice month.

I would like to personally apologize to the crew for being absent at the meeting this month, my 4th baby sister, Lucille McKenzie was born. I will try to be present from now on.

Security Report

Alright! This month has quite literally been heck in Fukushima Japan.

The Earthquake was at a scale of 9.0 with over 100 aftershocks that shook the whole country, followed by a killer tsunami.

Where does Fukushima come into play you ask? Well, for some odd reason Japan decided to build several nuclear reactors by themselves, right here in this small thriving city. Two words: Bad idea. The nuclear reactors were badly damaged, and radiation has been pouring out into the country. The Prime minister has made a few press talks and his latest one had him in full radiation containment gear saying, "Everything is under control".

The Japanese Government better buckle down because this isn't going to be a Sunday stroll through the cherry blossoms. It's going to take decades for Japan to recover, and if these reactors explode, the entire country will be wiped from the earth. Well, that's all for this month.

Second Officers Log

Submitted By: Ens. I Jinks, CXO

Greetings from 2nd officer Isaac Jinks.

This month's news letter is about our new renovating of the USS Telek and further information on the away missions.

We are reorganizing our ship so all duty orders can be finished with ease. Our new organization will be put into effect immediately. I have also been reassigned to be Chief Search & Rescue officer. Further information on the organization is still to be decided.

Our first away mission to the Grissom space museum will be next month. It will either be the first, second, or third week of the month. A few photos of the Grissom space museum will be posted below. The first photo is of the B-58 bomber, (now retired). The second is of the Apollo 1 were an explosion occurred killing 3 astronauts.

We are still confirming joint away missions with other ships.

Still pending, on what date we are supposed to head to the devils punch bowl.

I would also like to congratulate the Chief security officer on his promotion to 1st officer.

Chief Communications Officers Log

Submitted By: Cdt. L. Manns, COC

So, once again Apple brings us a product that Gene Roddenberry dreamed into fruition.

The I Phone 4 allows real time streaming video chat, with two cameras: the first offers "Face time" which focuses on the callers face; the second focuses on the other side of the camera, and you can switch between the two at will. For example, you are calling your wife and you're at the soccer game, you get excited because your daughter is about to score her first goal at a home game in Indianapolis, while your wife is on business in Denver. You can switch to the second camera, and share the moment together. Unbelievable!

Furthermore, they are boasting retina display, which is a picture so sharp, that the human eye cannot distinguish individual pixels. They have used their customer feedback well, and improved development and speed for their "apps" switching capabilities. Not to mention the fact that you can now shoot and edit movies on the I Phone 4... in HD, with the five megapixel camera that shoots movies in HD or fantastic photos.

Humans thrive on communication, and while for a moment it seemed to become dehumanizing, we turn around and improve the socialization of our technology.

Social networking, texting, e-mail, and blogging has desensitized so many people that it became necessary to re-humanize technology, achieving what men like Walt Disney, Orson Welles and Gene Roddenberry conceived in their mind and shared their vision through stories written and filmed for television or theatre.

It is so exciting to think of all of the possibilities being endless, but at our fingertips or just around the corner as well.

Chief Engineers Log

Submitted By: Lt. Cmdr. SR Hobbs, CEO

Why Should I Become an Engineer?

It is true that years of hard work are required to become an engineer, but after four years of college studying engineering, you can make good money. In fact, engineering is one of the few fields that let you earn good pay after only four years. Right now, four years might sound like a long time, but it's worth it. Consider it one of the best investments you can make. Besides, it's not all about the money. Here's a few other things you may want to consider:

Interesting Work

Engineering is a very broad field. There are so many types of engineering, that there is bound to be one you find interest in. Since science and technology are constantly expanding, there will always be new problems to solve-you'll rarely be bored. Unlike other jobs that require you to do the same thing over and over, the work of engineers greatly varies.

Challenges

In engineering, you will find yourself constantly finding new ways to solve problems. If you truly want to be an engineer, the challenges you will face will just make things more interesting. Overcoming obstacles will help sharpen your mind, helping you deal with problems not only in engineering but in life as well.

Creativity

In facing challenges, you will be encouraged to *think outside the box* and explore new possibilities. This need of creativity makes engineering even more exciting.

Sense of Accomplishment

There's no better feeling than the feeling that you accomplished something great. In engineering, you're doing just that. Imagine looking at a bridge that you helped design, or picking up a new invention that you created.

Helping Others

Engineering is all about making things people can use, and making life better for everybody. As an engineer, you will be able to see that you're actually making a difference in the world.

Uniqueness

As a girl, you will add diversity to a field that used to be dominated by men. There is indeed great strength in diversity. Engineering requires many different perspectives to find a single workable solution. You have the power to show the world what you can do. Don't always follow the crowd-show people that you are unique, but just as capable as anyone else.

Okay, now you're excited and ready to jump headfirst into the world of engineering. What's next? I'll show you how to make your dream a reality in the conclusion.

Chief Medical Officers Log

Submitted By: Cmdr. RL Hobbs, CMO

Hyperglycemia, this is higher than normal glucose (sugar) in your blood.

One normally sees this in diabetes, discussed in a previous issue.

The sugar cannot properly get into the blood cells, without a certain amount of insulin. Thus, sugar increases in the blood, and can also increase in the urine.

One can feel tired, weak, apathetic, lose weight, (since there fat tissue and muscle are burned up to provide energy), UTI's, (Urinary Tract Infections), blurred vision, (due to excess sugar in the fluid of the eye), etc.

The pancreas produces the hormones insulin and glucagon. These hormones play a major role in regulating the sugar level in your blood.

Treatment includes, but not limited to:

- insulin injections
- strict diet
- losing weight
- eating smaller portions, more frequently
- fewer carbs
- omitting real sugary foods, etc.

One will need to check blood sugar levels frequently, with one of many meters available. Your Doctor may or may not prescribe different types of injectable forms if insulin, depending on blood sugar levels.

There are also several hypoglycemic tablets available, which lower blood sugar levels, that your doctor may prescribe.

"Don't burn your barrel (part 3)"

"And she went and did according to the saying of Elijah:..."
I Kings 17:15 a
another reason for not burning your barrel is that there is always the prospect of help from above. In verse 19, the widow's son died. Elijah was informed of the tragedy and took the lad up into the loft where he lived. Listen, Elijah would not have been there if she had burnt her barrel. He would have been residing elsewhere in the boy would have been buried and not restored.

To back up several days earlier in Elijah's life, we know the ravens fed him bread and flesh. Once sage, said "the ravens flew into Jezebel's kitchen, picked up a biscuit and the talent and a sausage in the other. What happened to the gravy? They ate that themselves for the flight to the brook!" Sometimes one might think that G-d was just providing for the profit. Oh no, good neighbor, He was also taking care of the widow down the road. God kept Elijah alive, the widow kept Elijah alive, G-d provided meal in the barrel so they all might live, and when the child died, Elijah was there to stretch over him and bring him back to life!

If you have been saved and someone reached you with the Gospel, please know that someone reached them first. If you are saved, you ought to be a witness to others. G-d didn't just save you for your sake but that you might win others to him. There is help from above to reach down to sinners and lift them from their life of lostness in the sentence. **Don't burn your barrel**, there are eternal consequences in it. (Cont.) – T. G.

U.S.S. Telek News

Submitted By: Capt. ST Hobbs, CO

On SD 1103.12 (ED 12, March 2011) at 2:30 pm est. a representative of Starbase Six promoted Cmdr. Shelby T. Hobbs to the rank of Captain, and then proceeded to present, now Capt., Shelby T. Hobbs, with the commissioning certificate for the U.S.S. Telek NCC-46112.

Capt. ST Hobbs, USS Telek Commanding, presented the following crew with rank promotions:

2nd Officer, Isaac Jinks from 2Lt. to Ens.
Chief Engineer, Shelby R. Hobbs from Lt. to Lt. Cmdr.
Chief Medical Officer, Renee' L. Hobbs from Lt. Cmdr. to Commander.

The crew of the USS Telek has been invited to travel with the Klingons to the *Star Trek exhibition* in Louisville, KY.

The crew of the USS Telek has been discussing about going to *Trek Fest* in Riverside, IA, but this is yet to be decided.

James T. Kirk Wakes Up Shuttle Crew

Posted by T'Bonz - 07/03/11 at 12:03 pm

William Shatner provided the voiceover as Alexander Courage's original series theme song woke up the crew of STS-133 Discovery this morning.

The *Star Trek* theme song received the second-highest number of votes in NASA's "Space Rock" wake-up song public voting poll, in which fans chose from forty songs, with the two songs that received the highest number of votes to be played during STS-133 mission.

The winner of the contest was *Blue Sky* by Big Head Todd and the Monsters, which received 722,662 votes (29.3 percent of the votes cast). The *Star Trek* theme song came in second, with 671,134 votes, or 27.2 percent of the votes cast in the poll. *Blue Sky* will be played as the wake-up song on Tuesday, March 8.

Shatner provided the voiceover for the wake-up call, which occurred at 3:23 A.M. this morning. "Space, the final frontier," he said. "These have been the voyages of the space shuttle Discovery. Her thirty year mission: To seek out new science. To build new outposts. To bring nations together on the final frontier. To boldly go, and do, what no spacecraft has done before."

STS-133 Discovery launched on February 24. On this mission, the astronauts are: Commander **Steven Lindsey**, Pilot **Eric Boe** and Mission Specialists **Alvin Drew**, **Michael Barratt**, **Steve Bowen** and **Nicole Stott**, who will "deliver and install the Permanent Multipurpose Module, the Express Logistics Carrier 4 and provide critical spare components to the International Space Station."

The audio clip of the wake-up call can be heard [here](#).

March-April 2011 Star Trek Conventions

Posted by T'Bonz - 28/02/11 at 09:02 am

There will be six conventions, shows or appearances in March and April that feature Trek actors of interest to *Star Trek* fans. This listing of conventions and shows features actors from all five of the televised series and several of the *Star Trek* movies.

March kicks off with [The Official Star Trek Convention: The Celebration of the 45th Anniversary](#). This convention will be held at the Hyatt Regency San Francisco Airport from March 11-13, and features plenty of guests of interest to Trek fans. In attendance will be: **Leonard Nimoy**, **Nichelle Nichols**, **Gwynyth Walsh**, **Barbara March**, **Connor Trinneer**, **Nana Visitor**, **Dominic Keating**, **Grace Lee Whitney**, **Rene Auberjonois**, **Eric Menyuk** (*Star Trek: The Next Generation*'s The Traveler) and **Richard Arnold**.

There will be plenty of events at the Official *Star Trek* Convention, including an optional photography seminar with Leonard Nimoy, and a special performance by **Rene Auberjonois** and **Nana Visitor** in a play.

Also in March will be [MegaCon 2011](#) which will be held March 25-27 at the Orange County Convention Center in Orlando, Florida. In attendance at MegaCon 2011 will be: **William Shatner**, **Jonathan Frakes**, **Michael Dorn**, **Robin Curtis** and **Marina Sirtis**.

Two [Australian Supanova Pop Culture Expos](#) will start off the month of April. Brisbane 2011 will be held from April 1-3 at the RNA Showgrounds and Melbourne 2011 will be held from April 8-10 at the Melbourne Showgrounds. Guests of interests to Trek fans include *Star Trek XI*'s **Simon Pegg**, and **Christopher Lloyd**.

On April 9, the two-day [The Official Star Trek Convention: The Celebration of the 45th Anniversary](#) will be held in Phoenix, Arizona at the Sheraton Crescent Hotel. In attendance will be: **J.G. Hertzler**, **Max Grodenchik**, **Robert O'Reilly**, **Armin Shimerman**, **Gwynyth Walsh**, **Barbara March**, **Jeffrey Combs**, **Casey Biggs**, and **Vaughn Armstrong**.

Events include an optional *Star Trek* "Rat Pack" performance by Grodenchik, Armstrong, Combs, Biggs and Shimerman; *Breakfast with the Klingons*, an on-stage makeup workshop, and a costume parade.

Wrapping up the month of April will be the [Wizard World Anaheim Comic Con](#) will be held April 29-May 1 at the Anaheim Convention Center. In attendance will be **Robert Picardo**, **Chase Masterson**, **John de Lancie**, **Catherine Hicks**, and **Lee Arenberg**.

Word for Thought

Submitted By: Capt. ST Hobbs, CO

(Cont. from last issue)

That is how you will dig yourself into debt. So, you are saying, "The only way to get into debt, is to spend too much credit", that is where you are wrong. You can get into debt by the way I just mentioned, by paying only a few bills at a time and others at other times. You say, "How?"

By only paying one or two bills a month and not all, say, six bills; you will rack up a debt with the companies that you owe money to and may be sent to a collection agency, and even have your services canceled.

Now back to the topic at hand... If someone ask of you to do something for them, say, mow the lawn and you say you will do it on Saturday at 2 pm, and you don't do it, then that is not being responsible; But, if on the other hand, you do mow the lawn on the date and time you say you will, then that is being responsible.

I will keep this short in this issue and try to end this topic with this issue, so please bear with me...

Responsibility is the power to do good and to be well. I hope you have learned from this topic, and I will leave you with a quote from the previous issue on this topic...

..."...with great power, comes great responsibility..." A quote from spider man the movie.

Thank you...
