Covid-19 has too many are afraid of infection of the virus that has swept on planet. World leaders bicker as to who is to blame. Most ships set idle, cautious, waiting for a vaccine or for the tides of the infection to die down, in the mean time we send our children into areas that could be considered a petri dish that could explode in our faces. Citizens question the validity of the virus not wanting to be controlled, they must not know or care for those who have died.</p>
