Svengoolie

Here's the latest from your favorite April fool- actually, a fool for any month- yours truly. No, I'm not going to pull some lame prank because it's April 1st. I considered writing an entire newsletter of false information, supposedly written for me while I was away by our new assistant, April Furst- but any false information somehow ends up being misunderstood by people who didn't get the

joke. So, let April Fool's Day just be the start of a new month of foolish fright with some terrific fun-filled fright films!
